

ELEVATOR BEING BUILT AT ROY—FLOURING MILL AT MILLS IN WHEAT SECTION

The following complimentary article appeared in the Sunday El Paso Herald and will give our readers some insight to what is being done elsewhere while we lie dormant waiting for the spirit to move:

Roy, N. M., Oct. 9.—An evidence of the promising future of the mesa country around Roy, as a grain belt, is the entrance into this territory of the Wilson Company, a \$2,750,000 corporation operating extensively throughout the state of Kansas. This company is at present building a grain elevator at Roy which will have a capacity of about 8000 bushels, has just completed similar elevators at Mosquero, Abbot, and is now constructing at Mills, N. M., 11 miles north of Roy, a flouring mill and elevator with a guaranteed production of 100 barrels daily and a storage capacity of 75,000 bushels.

Roy is the center of a farming territory about 30 by 40 miles in extent, in which reside about 1200 families, with an approximate population of 5000 people who do their trading for the most part with Roy's four large mercantile stores—the Floersheim Merc. Co., who maintain a branch house at Springer, the Goodman Mercantile company, a \$25,000 corporation; the Sherman-Cosner company, successor to A. R. Davis Merc. Co., and J. Apple & Co.'s general store.

In the eastern part of Mora county 74 miles north of Tucumcari, and upon what is known as the Tequezquite mesa, is situated the new town of Roy with a population of 600. A little more than eight years ago the E. P. & S. W. railroad designated this town as a flag stop on its Tucumcari-Dawson line yet, today the citizens have a confirmation from the traveling auditor that the freight received and dispatched from Roy is, at present greater than that of any other local station on the line.

During the year 1914, there were shipped from Roy 108 cars of wheat, 8 cars of corn, 18 cars of beans, 10 cars of milo maize, 12 cars of beans, 10 cars of milo maize, 12 cars of wool 91 cars of cattle and about \$12,000 worth of dairy products. This year the wheat shipments will probably aggregate 125 cars, the bean shipments of other products as great or greater than 1914. Already there is planted an acreage of wheat for the year 1916 that would justify the prediction that the 1916 production of this grain will be fully three or four times greater than that of 1915.

A business change of decided importance to this community was made recently, when Charles Ifield, a wholesaler of Las Vegas and Albuquerque, after looking over the situation, purchased a large block of the stock of

the Goodman Merc. Co.

Roy has a bank, a drug store, a hospital with two attending physicians, a weekly newspaper, the Spanish-American, large machine shops, and several restaurants, small shops and offices of the kind usually found in a town of its size. Roy, however, is lacking in hotel facilities.

Its people are maintaining an excellent public school of 200 enrollment, employing eight teachers, comfortably housed in a new two-story concrete block building just completed at a cost of \$10,000. On Sunday, September 26, a new Christian church was cleared of debt and dedicated. The Catholics have a house for their worship, and the Baptists will soon commence the construction of their new church home.

Mills, a town of only one and a half years, is situated in the heart of the grain belt just 11 miles north of Roy, at which point is located the 100-barrel flouring mill, and 75,000 bushel

grain elevator of the Wilson Company and is rapidly developing as a trading center and shipping point.

Mills prides itself upon its five mammoth springs of pure living water, assuring an abundant and perpetual supply. Aside from the springs as a water supply, several wells recently dug to a varying depth of from 60 to 100 feet, have penetrated water strata of considerable abundance.

With new station facilities, 2000 feet of railroad siding, several mercantile stores, a large lumber yard, and with several new residences, shops and offices in course of construction, the stranger cannot but be impressed with the future outlook.

"MARSE COVINGTON"

Edward Connelly in "Marse Covington," a five act motion picture production from B. A. Rolfe studios, and released through Metro will be seen for the first time at THE NEW on Friday when local playgoers will have an opportunity of witnessing the vivid screen version of one of George Ade's most lovable fiction creations.

"Marse Covington" tells a story of a lovable old southern character whose great human frailty is gambling and whose weakness causes him endless troubles.

Edward Connelly created the role of "Marse Covington" in the stage production of that name and in addition to being one of the foremost character actors of the present day stage, has long since been known as an admirable actor of versatile talents.

MURDOCK NEWS

We are having some very cold, rainy weather of late. Most of the farmers are through pulling broom corn. Wheat hauling seem to be the main order of the day. Most everybody from these parts attended the fair at Tucumcari or Clovis.

The Pierce family, O. Bryant and Nettie B. Avant autotod to Clovis. W. M. Brittain and E. E. Rucker, Mrs. G. C. Williams also attended the fair in Clovis.

W. R. Bryant, Houston Bryant, C. M. Terry, R. B. Pierce, J. J. Avant and little daughter, Davie, attended the county fair in Tucumcari.

G. C. Williams and son Allen, who have been visiting in Indiana and Illinois for the past month are at home. G. C. says New Mexico still looks good to him.

A. C. Dennis passed Murdock a few days ago enroute to Noah Delk's at which place he will start his broom corn thresher.

Our star carrier, Mr. W. H. Cole, has had quite a lot of bad luck with his car of late. Mr. Adams of Melrose has been bringing him out.

C. Q. Brady has purchased the Abe Hester homestead which joins Mr. Brady on the south.

The next convention will be at Murdock 3rd Sunday in October. The editor and friends are given a special invitation to meet with us.

Mrs. Ruth Botts who has been down with rheumatism for sometime is reported as still confined to her bed.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Halls' Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials.

Californian Had Kidney Trouble

Jack Matton, Copperopolis, California, says: "I had such a severe case of kidney trouble I thought I would have to sell out my business. I took three bottles of Foley Kidney Pills which entirely relieved me and I have had no recurrence of kidney trouble since then."
Some days it seems as if you can no longer bear the pain and misery you suffer from kidney and bladder troubles. The ache across your back grows worse with every move you make and every step you take. It just seems to rob you of all strength and energy. Your head aches, you are nervous and worn out, sleep is unquiet and bowels irregular.
Foley Kidney Pills lessen the pain, until it is finally gone entirely. They give strength and tone to the kidneys—make them strong, active, their action becomes regular and normal again, and your health grows better each day you take this great healing medicine.
